EPSDT Screenings

Summary

The EPSDT incentive's purpose is to supply further payment to PCP's that meet or exceed the compliance rate for screenings as well as incentivize PCP's to perform more initial and periodic screening services. The EPSDT incentive will consist of a total pool of \$1,000,000 for all PCP's. The amount available per quarter is \$250,000. The first payment will be made in July 2009 based on dates of services between January 1, 2009 and March 31, 2009 with paid dates through June 30, 2009.

Criteria

All qualifying PCP's that meet or exceed the appropriate EPSDT compliance rate for medical home members for the age group will receive up to an additional 25% of the rate for the age appropriate procedure code (listed in the table below) according to the current fee schedule (unenanced). This percent increase is contingent on available funds and may be less.

Example Calculation

Table 1: EPSDT Bonus Payment per Screen

Proc Code Description	Age Group	Medicaid Allowable	Bonus % Rate	Bonus Amount
EPSDT Blended Rate	< 1	\$ 67.14	@ 25%	\$ 16.78
EPSDT Blended Rate	1-5	\$ 76.96	@ 25%	\$ 19.24
EPSDT Blended Rate	6-14	\$ 78.36	@ 25%	\$ 19.59
EPSDT Blended Rate	15-20	\$ 86.35	@ 25%	\$ 21.59

Compliance Rate Determination Example

The total unduplicated number of all individuals under the age of 21 determined to be eligible for EPSDT services is listed, distributed by age and by basis of Medicaid eligibility. The number of required screens per age group is specified according to the state’s periodicity schedule and the number of years in the age group is determined by the age group.

Compliance Rate Calculations (based on CMS-416 -methodology)	< 1	1	2-5	6-14	15-20
Total Individuals Eligible for EPSDT	212	181	486	796	87
Number of Required Screens	6	2	4	5	3
Number of Years in Age Group	1	1	4	9	6

Divide the number of required screens by the number of years in age group to calculate the number of expected screens in one year.

Number of Expected Screen in One Year	6	2	1	0.5	0.5
---------------------------------------	---	---	---	-----	-----

Total eligible months is the number of months of eligibility for the total individuals eligible for EPSDT.

Total Eligible Months	892	670	2693	4938	472
-----------------------	-----	-----	------	------	-----

Divide the total eligible months by the total individuals eligible for EPSDT and then divide by 12 to calculate the average period of eligibility.

Average Period of Eligibility	0.35	0.31	0.46	0.52	0.45
-------------------------------	------	------	------	------	------

STATE OF OKLAHOMA

Multiply the number of expected screens in one year by the average period of eligibility to calculate expected number of screens per eligible.

Expected Number of Screens Per Eligible	2.10	0.52	0.46	0.26	0.23
---	------	------	------	------	------

Multiply total individuals eligible for EPSDT by expected number of screens per eligible to calculate expected number of screens per group.

Expected Number of Screens Per Group	446	112	224	206	20
--------------------------------------	-----	-----	-----	-----	----

Total screens received is the total number of initial or periodic screens furnished to eligible individuals.

Total Screens Received	291	109	200	175	2
------------------------	-----	-----	-----	-----	---

Divide the total screens received by the expected number of screens per group to calculate the screening ratio. The screening ratio is then compared to the OHCA required compliance rate.

Screening Ratio	.65	.97	.89	.85	.10
OHCA Required Compliance Rate	.65	.65	.65	.65	.65

The complete table is shown below.

Bonus Payment Determination Example

The difference between the screening ratio and the OHCA required compliance rate is listed to determine % above compliance per age group.

Bonus Payment Calculations	< 1	1	2-5	6-14	15-20
% Above Compliance	0	.32	.24	.20	(.55)

The number of EPSDT screens is the total number of initial or periodic screens furnished to eligible individuals and is **ONLY** listed if screening ratio is at or above OHCA required compliance rate. If provider is below the required compliance rate enter 0.

Number of EPSDT Screens from Line 6	291	109	200	175	-
-------------------------------------	-----	-----	-----	-----	---

The bonus payment per screen is a fixed number to be determined by the OHCA and is based on a percent of the actual cost of an EPSDT screen per age group (see Table 1 above for example).

Bonus Payment Per Screen	\$16.78	\$19.24	\$19.24	\$19.59	\$21.59
--------------------------	---------	---------	---------	---------	---------

Multiply number of EPSDT screens by bonus payment per screen to calculate bonus payment per age group.

Bonus Payment Amount Per Age Group	\$4,883	\$2,097	\$3,848	\$3,428	\$0
------------------------------------	---------	---------	---------	---------	-----

Sum the bonus payments per age group to calculate total EPSDT bonus payment.

Total EPSDT Bonus Payment	\$14,256				
---------------------------	----------	--	--	--	--

The complete table is shown below.

Bonus Payment Calculations	< 1	1	2-5	6-14	15-20
% Above Compliance	0	.32	.24	.20	(.55)
